SUMMARY

Fourth-year BSIT student and hands-on developer who ships real, deployed software across mobile, full-stack web, and machine learning. Built and published AkAI, a two-way Filipino Sign Language communication assistant powered by an LSTM recognition model, now live on Google Play. Comfortable owning a project end to end, from data and model training to native Android delivery and REST-backed web systems.

EDUCATION

Cebu Institute of Technology-University
Bachelor of Science in Information Technology
Cebu City, Philippines • Currently 4th Year

Expected 2027

EXPERIENCE

Technical Support
Cebu Archdiocesan Commission on Environmental Concerns

2020 – 2022

- Provided hardware and software technical support to staff and office systems.
- Troubleshoot and maintained computers and peripherals to keep daily operations running.
- Assisted with setup, configuration, and basic system administration tasks.

FEATURED PROJECTS

AkAI: Two-Way Filipino Sign Language Assistant

Capstone • Live on Google Play

A mobile app bridging communication between Deaf and hearing users on a single device, combining real-time sign-to-text recognition with offline speech-to-text into a shared conversation thread. Trained and evaluated the LSTM model with a signer-independent (leave-one-signer-out) split for honest, real-world accuracy.

Kotlin • TensorFlow • Keras • MediaPipe • Vosk • LSTM • OpenCV

QuickInvoice: Web & Mobile Invoicing Platform

Systems Integration

Full-stack invoice management with 10 customizable templates, email/PDF generation, and Stripe-powered subscriptions. React + Vite web client and a native Kotlin (MVP) Android app, both backed by a Spring Boot + MongoDB Atlas API.

React • Vite • Kotlin • Spring Boot • MongoDB • Stripe • REST API

EquiTrack: Financial Tracking Web App

Full-Stack

A responsive financial-tracking application with interactive dashboards, visualizations, and dynamic filters. React + Vite frontend with a Spring Boot backend and PostgreSQL.

Spring Boot • React • Vite • Java • PostgreSQL • REST API

Stunotes: Student Productivity Platform

Full-Stack

A web app for managing academic tasks, deadlines, and notes, with assignment tracking, class notes, and reminders.

Django backend with cloud media storage.

Django • Python • JavaScript • REST API • Supabase • Cloudinary

TECHNICAL SKILLS

Languages	Java, Kotlin, Python, JavaScript, C
Machine Learning	TensorFlow, Keras, MediaPipe, OpenCV, NumPy, scikit-learn
Frontend	React, Vite, Tailwind CSS, HTML5, CSS3, Bootstrap
Backend & Data	Spring Boot, Django, Node.js, REST APIs, MySQL, PostgreSQL, MongoDB
Tools & IDEs	Git & GitHub, Android Studio, IntelliJ IDEA, VS Code, Postman, Figma

CERTIFICATIONS & INTERESTS

CMAS Open Water Scuba Diver

Since June 2023

Interests: mobile & ML application development, PC building, athletics, and the outdoors.
